PROFESSIONAL SUMMARY:

Business Process & Operations professional with 4+ years of experience optimizing workflows, improving compliance accuracy, and driving customer success across SaaS, government, and consulting. Skilled at process re-engineering, automation, and risk-controlled system improvements that reduce costs and elevate customer experience. Proficient in data analysis, dashboarding, and cross-functional project management.

WORK EXPERIENCE:

Mailmodo (YC21), Bangalore

Customer Success & Product Operations (Jan 2024 - Present)

- Oversaw operational processes for 200+ SaaS accounts (\$27k MRR), overseeing customer success operations and driving account growth strategies.
- Achieved consistent monthly expansion by doubling MRR for multiple accounts while maintaining a 75% customer retention rate through proactive engagement and value-driven solutions.
- Implemented AI-powered workflows in Vitally to re-engage customers, achieving 4% reply rates and improving NPS.
- Developed and executed customer adoption strategies focused on product adoption and stickiness, resulting in 98.5% Net Revenue Retention (NRR) through targeted solution implementation.
- Led end-to-end management of self-serve accounts, establishing automated touchpoints and success metrics to scale customer support efficiently while maintaining high satisfaction levels.
- Built reporting dashboards integrating HubSpot, Chargebee, Vitally to ensure unified compliance visibility and KPI accuracy.
- Designed and implemented a cross-functional reporting framework between Customer Success and Onboarding teams, enabling better tracking of account transitions and team-specific activities.
- Streamlined daily team operations by implementing AI-enabled workflows, leveraging tools such as Pipedream, Slackbots, and Google Appscripts.

Sales Development Representative (Oct 2022 - Jan 2024)

- Led end-to-end outbound sales development for the US market, utilizing multiple channels including LinkedIn, email campaigns, cold calling, and website chatbots to generate qualified leads.
- Consistently achieved 10+ qualified leads monthly while maintaining a 60%+ demo conversion rate across diverse industries including SaaS, EdTech, and D2C companies.
- Leveraged an integrated tech stack including Apollo, Outplay, HubSpot, and Walaaxy to optimize prospecting and lead qualification processes.
- Spearheaded optimization of website chatbot funnel, improving visitor engagement and response rates, resulting in chatbot-generated leads contributing over 30% of total outbound pipeline.

Bizarc Ventures, Bhubaneswar

Independent Consultant – Strategy & Process Optimization (Oct 2022 – Jan 2025)

- Led large-scale process transformation by designing and executing a government PR campaign for NeoTeric, managing a 45-member team, establishing standardized SOPs, and ensuring compliance across outreach workflows that generated 2,50,000+ impressions.
- Optimized supply chain operations for Mahabeer Inventory by auditing 120+ daily warehouse transactions and delivering a custom inventory system that improved order accuracy (82% → 97%), reduced compliance risks in billing by 90%, and tripled monthly order throughput.
- Directed a ₹60-lakh digital transformation initiative for OSDA, aligning product development with government compliance objectives, and launching process automation features (modular CMS, push notifications, analytics dashboards) to improve transparency for 12,000+ users.
- Developed an app based reporting platform (IWD Secretary App) for 2,400+ leaders across 60+ clubs, automating monthly/yearly compliance reporting, strengthening audit readiness, and achieving 100% onboarding compliance.
- Standardized monitoring systems by designing custom modules to track volunteer hours, funds, and beneficiaries, reducing manual effort by >80% and enhancing governance and international reporting readiness.
- Executed a data governance project for Royal Living Tangi's 34,000+ LPG customer base; led a 7-member team to clean 14,500+ records and verify 5,027+ addresses, replacing IVRS with GSM-based outbound systems and projecting a 12–15% uplift in digital LPG bookings.
- Improved accessibility and compliance in rural outreach campaigns by coordinating with SHGs and Mission Shakti Groups, resolving language barriers, and driving awareness among 10,000+ beneficiaries under PMUY.

- Delivered scalable process improvement solutions across government, nonprofit, and SME sectors by combining structured diagnostics, budget optimization, automation, and risk-controlled execution.

Head of Operations (Feb 2021 - Oct 2022)

- Managed a ₹5-lakh annual marketing budget across 20+ client campaigns, performing cost-benefit analyses to optimize ad spend, which improved average ROAS by 30% across F&B, retail, and hospitality clients.
- Built and led a 5-member in-house marketing unit, supporting brands across F&B, e-commerce, personal care, retail, real estate, and hospitality sectors with end-to-end marketing strategy and execution.
- Drove brand growth by developing data-backed campaigns focused on customer acquisition, engagement, and retention, resulting in improved ROI across digital touchpoints.
- Enabled hospitality clients to establish a digital presence through custom websites, unlocking new revenue channels via direct bookings and online visibility.
- Supported 20+ client engagements (B2B and B2C), managing strategy, campaign execution, client communications, and marketing performance reviews.
- Deployed marketing automation workflows and CRM tools to enhance campaign efficiency, accelerate delivery timelines, and streamline internal operations.

V DO Hosting – Founder (May 2020 – Feb 2021)

- Launched a start-up during the COVID19 pandemic.
- Developed a working business model based on video conferencing/virtual meetings platforms.
- Gained client handling experience by handling more than 500+ Events with 60,000+ participants attending the event.
- Held Management position by heading a team of 10 people for the smooth running of the business.

Molson Coors Beverage Company UK – Telesales Rep. (Feb 2020 – Apr 2020)

- Worked as a telesales member, responsible for handling customers and 2 area managers.
- Held a client-facing role, promoting the product to approx 60 businesses daily and generating leads for the company.
- Utilized communication and negotiation skills to collect customer data and perform Sales Audit.
